7. Workforce Management.	7.2 Work related Travel. 7.2.2 Deliveries to other sites.	1. Handling of shared equipment that has not been sanitised.	1. Putting in place procedures to minimise person-to-person contact during deliveries to other sites. 2. Minimising the number of people travelling together in any one vehicle. 3. Fixed travel partners. 4. Increasing ventilation when possible and avoiding sitting face-to-face. 5. Cleaning shared vehicles between shifts or on handover.	3	1. Provision of Hand Sanitisers in vehicles. 2. Poster Reminders. 3. Possible Disciplinary Action for failure to follow good hygiene regime.	3	1. Site Managers should consider additional controls that can be implemented to reduce risk. 2. Managers should check and ensure social distancing is being maintained. 3. Refer to Government Guidance on Working safely during COVID-19, for possible additional site specific controls
		2. Employees unable to adhere to social distancing whilst driving.	1. Provision of washroom and toilet wash facilities. 2. Reminders on correct hand washing regime.	3	1. Introduce mandatory face coverings for shared driving tasks. 2. Provision of Hand Sanitisers in vehicles.	3	1. Refer to Government Guidance on Working safely during COVID-19, for possible additional site specific controls
		2. Transmission by touching contaminated surfaces.	2. Maintaining consistent Team pairing where two-person deliveries are required. 1. Provision of washroom and toilet wash facilities. 2. Reminders on correct hand washing regime.	3	Manager added local or site specific controls	3	1. Refer to Government Guidance on Working safely during COVID-19, for possible additional site specific controls.
		4. Employees contaminating surfaces through little or ineffective hygiene regime, resulting in transmission to other employees, through contact with contaminated surfaces.	1. Provision of washroom and toilet wash facilities. 2. Reminders on correct hand washing regime.	3	1. Provision of Hand Sanitisers in vehicles. 2. Increase in hand washing regime.	3	1. Increased cleaning regime will reduce the likelihood of cross contamination. 2. Refer to Government Guidance on Working safely during COVID-19, for possible additional site specific controls.
		5. Unidentified COVID-19 infected employees returning / coming to work	1. Temperature checks as part of the site access process	3	1. Increase frequency of Temperature check during the shift	3	1. Temperature checks should be conducted on all Uniserve sites
7. Workforce Management.	7.3 Communication and Training. 7.3.1 Return to work.	1. Employees not having a clear understanding of what is required of them while they are on site regarding social distancing and correct hygiene measures.	1. Displaying of signed "Staying COVID-19 Secure in 2020" posters and other informative signage. 2. Providing clear guidance on social distancing and hygiene to employees during return to work induction. 3. Communication and training for workers prior to returning to site, regarding new procedures for arrival at work. 4. Engaging with workers and worker representatives through existing communication routes to explain and agree any changes in working arrangements.	45	1. Review ATW and visitor permits to include guidance on social distancing and sanitation good practice.	45	1. Managers should check and ensure social distancing and hygiene measures information posters and other guidance is displayed and updated as required.

Cromwell Manor Spread and Containment of Covid-19 virus RA							
7. Workforce Management.	7.3 Communication and Training. 7.3.2 Ongoing communications and Signage.	1. Staff not aware of changes relevant to them within the workplace.	1. Ongoing engagement with workers monitor and understand any unforeseen impacts or changes to working environments.	45	1. weekly / Monthly reviews of Covid alert stage. 2. Periodical announcements regarding Covid-19 alert stage and how it impacts the workplace.	45	1. Managers should ensure that any significant changes in working conditions are brought to their staffs attention.
		2. Employees not aware of potential changes in policy or procedure regarding social distancing, due to change in Covid alert Stage.	1. Regular updates on current Covid-19 situation, using noticeboards, newsletters and briefings.	45		45	1. weekly / Monthly reviews of Covid alert stage. 2. Managers should ensure that any significant changes in working conditions are brought to their staffs attention.
		3. Employees not understanding guidance displayed or briefed to them.	1. Engage workforce using simple, clear messaging to explain guidelines using images and clear language, with consideration of groups for which English may not be their first language. 2. Using visual communications, to explain changes to schedules, breakdowns or materials shortages to reduce the need for face-to-face communications.	45	1. Two way flow of communication to enable employees to discuss any changes to their working environment.	45	
8. Inbound and outbound goods.	8. Inbound and outbound goods.	1. Employees unable to adhere to social distancing whilst driving with passengers.	1. Revising pick-up and drop-off collection points, procedures, signage and markings. 2. Minimising unnecessary contact at gatehouse security, yard and warehouse. For example, non-contact deliveries where the nature of the product allows for use of electronic pre-booking. 3. Encouraging drivers to stay in their vehicles where this does not compromise their safety and existing safe working practice, such as preventing drive-always.	18	1. Use of face covering.	18	1. Managers should check and ensure social distancing and hygiene measures are being adhered to. 2. Refer to Government Guidance on Working safely during COVID-19 , for possible additional site specific controls.
		2. Handling of shared equipment that has not been sanitised.	1. Considering methods to reduce frequency of deliveries, for example by ordering larger quantities less often. 2. Using drop-off points or transfer zones. 3. Where possible and safe, having single workers load or unload vehicles. 4. Increased use of M.H.E. 5. Cleaning procedures for the parts of shared equipment you touched after each use (vehicles, pallet trucks and forklift trucks). 6. Increased handwashing and introducing more hand washing facilities. 7. Enabling drivers to access welfare facilities when required, consistent with other	18		18	1. Site Managers should consider additional controls that can be implemented to reduce risk. 2. Managers should check and ensure social distancing is being is being maintained. 3. Refer to Government Guidance on Working safely during COVID-19 , for possible additional site specific controls
		3. Delivery drivers contaminating surfaces through little or ineffective hygiene regime, resulting in transmission to employees, through contact with contaminated surfaces.	1. Drivers to stay in their vehicles where this does not compromise their safety and existing safe working practice, such as preventing drive-always. 2.
