Our Mission Statement

To be a recognised leader, by continuing to develop innovative and proven operations and services in logistics and global supply management. To become an integral part of our clients business, managing their products and expectations and ensuring they reach market without delay or issue. We will achieve this with a passionate workforce and quality partners around the world, who ensure our business is continually evolving and at the forefront of industry.

Our Values

Pride

Our people are proud of the fact they work for Uniserve and in everything they do.

Improvement

Our people are encouraged to constructively challenge so they reach their full potential.

Commitment

Our people are committed to delivering exceptional service.

Reward

Our people are rewarded for contribution and for value they provide us and our customers.

Involvement

Our people are well informed of progress in our trade, company and customers.

Fair Treatment

Our people are respected and encouraged to respect others, whoever they are.

Our Centres of Excellence

Uniserve provide distribution and logistics services from facilities across the UK and Ireland.

Our global international trades are controlled from the UK through Tilbury Control Tower (Surface) and Heathrow Control Tower (Air).

Central services, education and technology is located at our London HQ, with regional support teams in China, Singapore, Europe and the United States.

Global Presence with Local Capabilities

Present in every major trading market

Our Overseas Partnerships are managed jointly by our Trade Management and Regional General Manager network.

We only work with like minded partners, specialising in their core capability, all linked to our One World Supply Chain operating platform.

One World technology drives each and every individual, through workflows, exceptions and notifications of their responsibilities and duties.

- Local trends and change
- Regional intelligence

An Ocean Of Supply Chain Possibilities

Sea Freight

UniOcean is the ocean freight trading division of **Uniserve**, the largest and most successful independent ocean freight carrier in the UK. **UniOcean** offers more choice than our competitors, with an extensive range of flexible FCL options and a vast array of our own LCL services.

Our methodology is to financially invest in and control the components before tailoring them to our customer needs.

This includes warehousing, distribution, container transport, port operations, IT platforms, customs connectivity, overseas operations and training, all of which are now developed in house.

UNIOcean

UNIOcean

A True Master Consolidator

FCL

Service contracts and guaranteed space, achieved through our major annual volumes.

LCL

An unparalleled number of weekly import and export departures with the fastest transit times.

PROJECT CARGO

Solutions for out of gauge and unusually sized cargo, including ship chartering.

COOL CHAIN

Temperature controlled equipment for perishable and frozen products with our own specialist knowledge.

FREIGHT MANAGEMENT

Solutions that encompass the entire supply chain and peak season management programs.

CONTRACTS

3, 6 and 12 month spot contract options available allowing fixed pricing, subject to volumes.

BUYERS CONSOLIDATION

Multi-vendor and multi-region origin consolidations to minimise costs.

CUSTOMS

Customs clearance and duty management through our own offices and overseas partners.

Reach New Heights With Uniserve **Air Freight**

UniAir is the airfreight trading division of **Uniserve**, a leading global airfreight provider covering the world's major airports.

Through global carrier contracts and blocked space agreements we offer a wide range of scheduled services worldwide.

As the **UK's largest independent logistics provider**, our market position is based on significant volume and a long track record of successfully fulfilled contracts.

Our airfreight division has won numerous industry awards, including the **BIFA Airfreight Award** for a record breaking five times, which is a testament to the efforts and endeavours of our team.

UNIair

UNi air

A True Master Consolidator

SCHEDULED

Guaranteed space, achieved through our major annual volumes.

CHARTERS

We cater for those larger, and often urgent, movements on non-scheduled flights at short notice.

TIME CRITICAL

Express and back to back airline services to and from all major airports around the globe.

MULTIMODAL

All modes of transport and possibilities available, including sea/air, road, rail and ocean.

COURIER

Using our very own parcel solution we offer worldwide courier services with online tracking

HAND CARRY

Bespoke and tailored solutions and service deliveries for all business requirements

FREIGHT MANAGEMENT

Solutions that encompass the entire supply chain and peak season management programs.

CUSTOMS

Customs clearance and duty management through our own offices and overseas partners.

PAN EUROPEAN **Freight Solutions**

UniEurope, a trading division of Uniserve, provides European road freight services that cater for all cargo types, including loose, palletised GOH, hazardous and ADR cargo.

This unique approach makes UniEurope a specialist in helping customers navigate complex supply chain challenges.

- Full load, part load and groupage services
- Wide variety of equipment availability, including 45ft containers (UK & Europe)
- High security services (box trailers and/or containers)
- Temperature controlled services
- Wine & drinks logistics experts
- Short sea and intermodal services
- Customer centric solutions
- Bespoke solutions for complex supply chains (Timed deliveries, tail lift equipped, KPI reporting & document control)

UNIeurope

UNIEurope

**A True Master
Consolidator**

GROUPAGE

Regular scheduled groupage (economy) services covering all of Europe via major hubs.

EXPRESS

Express groupage services for more urgently required shipments with faster turnarounds.

DEDICATED

Accompanied driver services including full loads and bullet vans at a moments notice

UNACCOMPANIED

A wide range of economical unaccompanied driver services for full load shipments.

SHORT SEA

Economical container movements through Northern European and Mediterranean ports.

PROJECT CARGO

Solutions for out of gauge and unusually sized cargo, throughout Europe.

INTERMODAL

Intermodal services including full road/rail/ road options to and from major European cities.

CUSTOMS

Priority customs clearance services, including Duty, VAT and intrastat controls, as required.

Pan European Network

Trust UniEurope for your pan-European road freight needs

Uniserve's pan-European road freight service offers a reliable and cost-effective solution for transporting goods across Europe.

With a large and robust network of trusted partners, Uniserve can provide seamless end-to-end logistics solutions, including customs clearance and warehousing services.

Utilising our OneWorld Supply Chain Management technology, Uniserve offers real-time tracking and visibility, ensuring customers have complete control and transparency throughout the shipping process.

UNIEurope

- 80,000 ambient pallet spaces
- 10 levels of racking
- 4 mezzanine floors
- 200,000 sq ft purpose-built fulfilment zone

Cold Chain Services

- 100,000 sq ft cold store
- 17,000 pallet spaces of frozen storage

Reduce costs

Reduce complexity & free up capacity

Quicker access to goods

Improve cash flow

Free port customs status

Benefits of Port Centric Logistics

Port Centric Logistics Solution for the Whole of Asia

Zero GST bonded Distribution Centre in Singapore

Uniserve offers a strategically located zero GST bonded 84,000 sq ft Express Global Distribution Centre (EGDC) in Singapore, operating as our global hub for both ocean and air freight services.

Free Trade Zones

The facility resides within one of Singapore's free trade zones and is 7 miles from Changi airport. This is a designated area where the payment of duties and taxes are suspended when goods arrive, are stored, or sold within the trade zone - a huge boost to cash flow!

Key Location

Our EGDC is ideally located to service China, SE Asia, Australasia, the Middle East and the Indian Subcontinent - perfectly situated as a regional fulfilment centre offering port-centric services for the whole of Asia.

EGDC Service Solutions:

- Major Exporter Free Trade Status (MES) - bonded storage
- Own deferment account
- Duty and excise management
- Warehouse services (pick & pack operations, value-added services)
- Ability to handle general cargo to retail fashion garments.
- Consolidation services
- LCL services
- Temperature & humidity-controlled storage
- Custom clearance management

Benefits of Uniserve's EGDC:

- Reduce costs
- Removes complexity from supply chains
- Quicker access to goods
- Frees up resource/capacity
- Improves cash flow

Schiphol DC – A Gateway to Europe

Our Schiphol facility provides a gateway Distribution Centre, delivering excellent coverage across Europe

The Schiphol DC provides 15,700 sq. m of warehousing situated in a prime location close to both Schiphol Airport and Rotterdam container terminals - the perfect gateway operation for Europe.

The facility boasts 3,000 sq. m of dedicated e-fulfilment space with access to specialist services including fiscal representation.

With racked, bulk and mezzanine floor operations, the Schiphol DC is a truly flexible facility that can offer a solution to fit your needs.

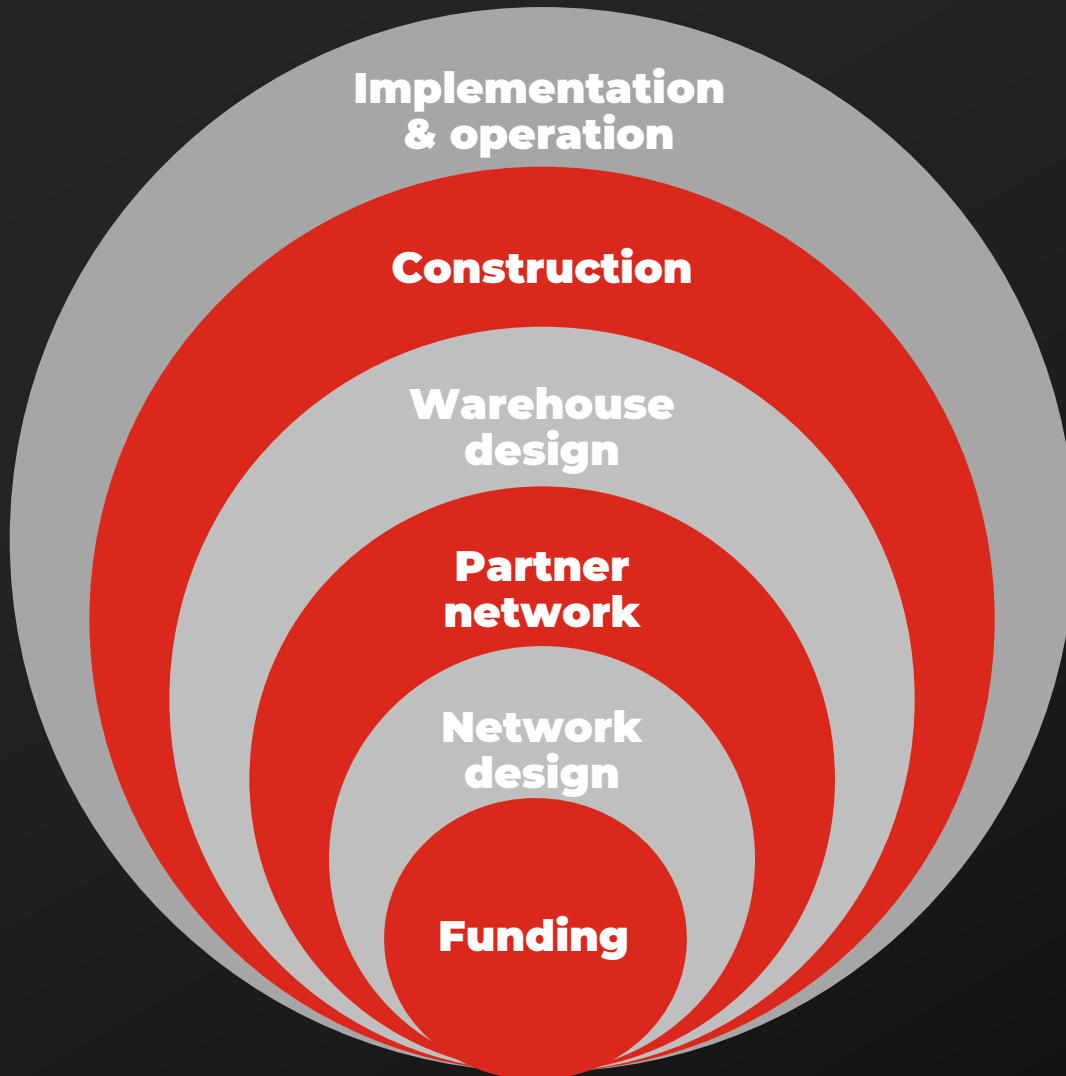

Key features of Schiphol facility:

- Excellent transport links and access to both airport and container terminal operations
- Most Europe destinations are reached within 24 hours or less by truck
- Customs processes are easy to navigate through our digital processes and facility location within the customs trade zone (PGTS)
- Just 8 KM from Schiphol Airport and 100 KM from Rotterdam Container terminal

All in One Property Solution

Commercial Buildings for the 21st Century

Funding

- Capital in place for large development projects
- Actively growing strategic land bank in UK & EU
- Ability to fully fund land and construction costs

Network design

- Global network design expertise
- Centre of gravity analysis
- Inbound and outbound flows – lowest cost global networks developed

Partner network

- Established & retained relationships with full suite of market professional services
- Sales agents, contractors, land owners, architects, planners

Warehouse design expertise

- Designed by operators not institutions
- Multiple successful UK and EU development projects
- Customer driven solutions

Construction experience

- 750,000 sq ft warehouse recently completed
- Proven design and build process flows
- Full Project management - delivered on time and on budget

Implementation & operation

- 38 years of providing best in class global supply chain warehouse and freight solutions
- Expert coordination of property, supply chain & construction process flows

- Global DC & Fulfilment Centres: UK & Ireland, Europe, SE Asia, Indian Subcontinent, Hong Kong, China, America and South Africa.

- Over 10 million sq ft of high bay warehousing and storage in strategic global ports. 2.75 million sq ft being built in the UK.

UNISERVE
your global business

End to End Flexible & Tailored Global Distribution Services

- Complete fulfilment and e-commerce operations, including rework, returns, stock management, pick and pack.

A large fleet of vehicles in Europe, providing distribution, container transport, store deliveries, home deliveries and parcel services. A full range of services for both B2B and B2C customers.

Container Transport

James Kemball has continued to invest in high quality equipment and systems and has built an enviable reputation of container transport reliability and service excellence.

Container Storage

Following a multi-million pound investment, James Kemball operates a container storage depot at the Port of Felixstowe with capacity in excess of 2,000 loaded containers. In addition, we run a 11-acre site at Associated British Ports (ABP) in Ipswich and sites in Southampton and the Netherlands.

A Uniserve Group company

Global Trade Management

Uniserve appreciate the value that can be unlocked by thinking differently and treating the international and domestic supply chain networks as one.

Uniserve offer our Global Trade Management (GTM) product, which supports customers in approaching their end-to-end supply chain as one entity.

Uniserve GTM products implement the key enablers throughout the entire supply chain process, transforming it into a seamless, agile, connected operation. Our GTM products enable us to become an integral part of our client's business, managing all of their expectations and ensuring they reach market without delay or issue.

- Uniserve GTM control the flow of product from the point of purchase order placement, through to end user delivery.
- Linking all of the components in the supply chain seamlessly through the highly sophisticated One World platform, which produces analytics to enable better informed decision making.
- Through this internally developed technology, the GTM team deliver improvements to inventory levels and bottom line.
- GTMS's global administration centres enable the reduction of labour costs, increase efficiency and maintain a 24/7 service around the world.
- The GTM services also include monitoring and auditing every part of the supply chain, ensuring procedures and agreed standards are implemented and maintained to the highest level.

SKILLS & EDUCATION
Providing expert supply chain advice, training and consultation with a business led approach.

PROCESS & DELIVERY
Intelligently managing the supply chain process for maximum effectiveness and efficiencies.

ONE WORLD
Technologically advanced software providing full real-time visibility of the whole supply chain.

ANALYSIS & DEVELOPMENT
Our expertise in monitoring markets and practices enables us to provide the right insights.

RETAIL & INDUSTRY SOLUTIONS
Providing rapid entry into the market both online and in store for retail customers and other major verticals.

FINANCIAL & PROFESSIONAL
Global banking, finance, accounting, sourcing, testing and quality control services.

INVENTORY & LOGISTICS
Our true end to end logistics services and more. As far upstream and as far downstream as we can go.

GREEN ACTIVITIES
Ensuring a responsible supply chain, by managing processes that help develop a more sustainable future.

Global Trade Management Methodology

The Innovative Digital Ecosystem for Global Trade Management

One World exists to transform the world's Supply Chains. One World can measure and manage Supply Chains from the very highest perspective, down to an unmatched level of product and ingredient detail to elevate the opportunity to manage for a sustainable future.

One World combines industry expertise with cutting edge technology to create a uniquely transparent, collaborative, intelligent digital Supply Chain system. Its technology can improve businesses time to market, reduce carbon impact, lower costs and drive organisational efficiencies for meaningful change.

Key Features

- Vendor and purchase order management.
- Supply chain automation and optimisation.
- Trade compliance.
- Global shipment tracking.
- Unprecedented collaboration tools.
- Real time information

Key Benefits

- Enables you to make better and faster decisions.
- Accelerates the movement of goods.
- Improves customer service.
- Reduces global supply chain and overhead costs.
- Connects key participants within the supply chain.

The One World Platform

The One World platform comprises of 10 stacks that capture the full Supply Chain lifecycle, and share it across entire value chains so all participants, including consumers, have a better understanding of the materials and products they use and their embodied environmental impact.

1.

Product

Design traceability, planning, people and process of the entire product from raw materials to recycling.

2.

Buy

Sourcing, sampling, negotiating, contracting, supply forecasting conducting due diligence on organisations.

3.

Trade

Customer experience, demand planning and real time, personalisation, speed to delivery.

4.

Make

Encompasses creating and producing the product according to specification.

5.

Move

The physical movement and distribution of product nationally and internationally.

6.

Sell

Reaching the audience to market the product through different B2B and B2B2C channels.

7.

Network Design

Get a total overview of the products, people and processes involved in your supply chain.

8.

Governance

Establish data and working standards and manage by exception, from sustainability frameworks to master data management policies.

9.

Sustainability

Enable product to flow through the lifecycle while considering industry recognised standards according to poverty, inequality, climate change, environmental degradation, peace and justice.

10.

Finance

The investment, finance control, budget, forecast and actual costs and sale of products.

Our Sustainability Commitment

Uniserve's commitment to sustainability is at the heart of all our business operations.

As the UK's largest privately-owned logistics business, Uniserve has a responsibility to safeguard the environment – through corporate responsible business practices and our commitment to meeting the UN Global Compact and UN Sustainable Development Goals.

To achieve these goals, Uniserve's sustainability model focuses on the following four key areas:

- **Social Governance:** Human rights risk situations / Human development and training in the workplace
- **Environmental Control:** Preventing Pollution / Climate change mitigation
- **Circular product life:** Sustainable resource use & recycling
- **Corporate Governance:** Quality / Health & Safety at Work / Compliance

Continuous
carbon
reductions

Significant
investment to
reach Net Zero

Committed to
the United
Nations' Race to
Zero campaign

A Truly Environmentally Responsible Business

Achieving key sustainability initiatives throughout the Group

- Leveraging Beyondly's B Corp certified environmental consultancy and compliance scheme status to drive strategies for the Group and our customers.
- Investment in pioneering technology business, CSX Carbon, to support UK nature recovery & biodiversity.
- Recycling and waste management initiatives at offices and facilities.
- Generation of our own power through a large-scale solar panel installation at our Felixstowe Mega Distribution Centre.
- Conversion to alternative fuels.
- Vehicle & driving lead efficiencies throughout all transport operations.
- Optimised transport operations to reduce and avoid empty running.
- The design and build of new vessels with cutting edge environmentally friendly hull propeller paint and inbuilt vessel thrusters.
- Uniserve has signed up to Air France and KLM's joint innovative Sustainable Aviation Fuel (SAF) programme, related to the development of reduced greenhouse gases within the aviation logistics sector.

Our Supply Chain Expertise is so Strong and far Reaching

We even teach it!

Delivering outstanding global supply chain capabilities to businesses throughout the world. The Uniserve Group's **Supply Chain Academy** is the only worldwide learning resource centre dedicated entirely to the subject of supply chain. We provide business led courses for executives, managers and aspiring managers along with a supply chain degree that can be achieved while you work.

Building intrapreneurs and T-shaped people.
